ABOUT US

HST Corporate Interiors can provide you with a GSA packaged office Schedule 71-1. From modular cabinets, to technical furniture we are able to present solutions in any setting. A complete fulfillment and logistics system for your office is provided and HST Corporate Interiors guarantees timely and worry-free service. Our relationship with HST Interior Elements affords us with **more than fifteen years of experience** managing large projects. Also, with an array of furniture partners, we are able to efficiently and effectively meet all of your office needs.

ABOUT US

Annette Roper

President

Former Drill Instructor for the United States Navy, Annette Roper now leads the Corporate Interiors team. When asked what the most important aspect of the business is, Annette said:

“Our goal is to stay within the client’s budget, create ease of business with one contract, service them properly and continue to serve them after they have received their furniture. I want to make the customers happy and know that we came in and made a difference.”

Being a service-disabled veteran, she has a personal mission to improve ergonomics in the office. Her entrepreneurial spirit and vast knowledge of the furniture industry has been, and continues to be, the driving force of her success.

ABOUT US

Larry Carr

Vice President

As the Vice President of HST Corporate Interiors, Larry brings over 20 years of experience in the commercial furniture industry to the table. Before furniture, he was a managing partner of Burton, Canaday, Moore & Carr Certified Public Accountants, and worked in hospital management.

Brenda Pond

GSA Specialist

Working in the commercial furniture industry since 2000, Brenda has established herself as the GSA Specialist for Corporate Interiors. Prior to joining the CI team, she worked in human resources, administration, sales support and operations management.

OUR WORK: HEALTHCARE

Surgical Intensive Care Unit at Nashville VA Medical Center

In September of 2006, HST Corporate Interiors presented a proposal to update the nurse stations from a modular standpoint in the Surgical Intensive Care Unit (SICU) of the Nashville VA Medical Center. As the project evolved so did HST Corporate Interiors role. They not only outfitted the nurse stations as originally planned, but also 13 critical care rooms, and fulfilled any additional needs for the overall renovation of the SICU.

Headwalls and articulating service manager pendants were installed in the patient rooms to ease bedside care. Also, a full size wall product and breakaway doors were used to create patient rooms. Finally, privacy glass that could be turned on and off was installed on the outside of nurse and patient servers. Upon its successful completion in 2007, VA officials have used the SICU as an example for other VA hospitals and have continued to bring in representatives from around the country.

OUR WORK: OFFICE SOLUTIONS

Criminal Investigation Unit Internal Revenue Service

Although the Internal Revenue Service (IRS) has been a client of HST Corporate Interiors (HSTCI) from the beginning, their most recent endeavor was the renovation of Criminal Investigation Unit in Nashville, TN. HSTCI played several roles in the development of this project. They acted as a consultant and pulled together products from a multitude of GSA approved vendors, arranged simultaneous presentations in one location, assisted in narrowing down the field, and then coordinated three bids. HSTCI also helped to determine what the project budget would be. Once the decision-makers made their final selection, HSTCI arranged for renderings of the project to be created and worked directly with IRS designers and the procurement office.

Some of the products included in the renovation were: **Kimball Xsite Workstations, Kimball Traxx and Tiles** in the mailroom, **Kimball Casegoods** for private offices, **Mayline Height Adjustable Tables** for ergonomics, **Mayline High Density Mobile Shelving and Storage Units** for the evidence rooms, as well as **Tennsco Shelving**. Also, the IRS currently holds a B.P.A. contract with Knoll seating, so HSTCI arranged this order as well. Instead of working with four different manufacturers, the IRS only dealt with one point of contact which worked cohesively with the IRS officials and saved them a significant amount of time and money.
